Thank you for asking, but I think it would be easier if you kept the case. I know about the methods, but not a whole lot about the devices! Feel free to talk to me about a search or anything.

Primary Examiner McDowell:

Case 09/989,796 (10 claims) has been assigned to me. However, this case is a div. of 09/483,390 examined and allowed by you.

I have both cases (div and parent cases) with me. I think that I should ask you if you want the case, if so, I will come over your location with two cases.

Please keep me informed,
Thank you,
